- Connecting all major clients with redundant fiber network for auto- failover, giving uptime guarantee of 99.99%
- Trained and experienced manpower
- Prompt service provisioning, Total services under one roof.
- Service level Agreement
- Round-the-clock monitoring, fault reporting and maintenance through 24x7 network operations center
- More than 1000 satisfied corporate customers.

OUR SERVICE

Internet Leased Line Services:

Offering dedicated, high-speed internet connectivity to businesses and organizations

Bandwidth Services:

Providing customized bandwidth solutions tailored to the specific needs and requirements of clients.

Data Transmission Services:

Facilitating the transfer of data between different locations securely and efficiently.

Network Management Services:

Managing and monitoring leased line networks to ensure optimal performance and reliability.

Security Solutions:

Implementing security measures such as firewalls, encryption, and intrusion detection to protect data transmitted over leased lines.

Quality of Service (QoS) Management:

Ensuring consistent and reliable performance by prioritizing traffic and managing network congestion.

INTERNET BANDWIDTH SOLUTIONS

- ESNPL is a category “A” Internet Service Provider (ISP) having its operations in major metropolitan cities across India
- Provides premium bandwidth solutions to corporate clients in industries such as hospitality, media, IT, logistics, real estate, manufacturing, and education among others
- Provides the dual advantage of reliable satellite connectivity and lowest possible ping time on fiber cable for time-critical applications
- Provides premium 1:1 bandwidth through fiber connectivity as well as wireless connectivity (RF) for high uptime
- Associated with all major telcos such as Airtel, Tata, Vi for best uptimes and quality experience ESNPL also offers redundant Internet Leased Lines combining multiple POPs and multiple last miles to provide near 100% uptime
- Users are able to utilize full speeds of their internet links as ESNPL allocates high bandwidth capacity to its links to guarantee congestion-free leased line connections

CONNECTIVITY SOLUTIONS

- IP VPN provides a flexible and customizable network that lets you connect offices, branches, warehouses, data centers, and other locations with ease
- Can reduce costs and simplify operations by converging all your existing voice and data applications onto one network
- Provides a foundation for internet-of- things in the organization.

NETWORK SECURITIES

- Firewalls are designed to prevent unauthorized access to and from your private network
- Firewalls are tightly integrated with a combination of stateful firewall and IP security (IP Sec) virtual private network (VPN) capabilities, offering unprecedented levels of protection
